316 Stainless Earth Rods

Part Number:	i3S-SE01	13mm x 1500mm
	i3S-SE02	13mm x 1800mm

Manufactured from solid 316 Grade Stainless Steel, our Earth Rods are highly resistant to corrosion and the perfect choice in harsh environmental conditions.

Stainless steel earth rods are designed for use where problems may be caused by galvanic corrosion due to dissimilar metals being buried in close proximity.

Application in aggressive soil conditions in areas of high levels of salt or moisture retention.

A full range of Brass and Stainless Steel Connectors are available for conductor connection.
